

Luminos 3

Effective and Attractive Fly Control

Luminos 3 has been specifically designed to offer effective fly control for food retailers and property management companies.

The unit has a highly effective glue board that is designed for use in medium to high risk areas. The glue board covers the back and base of the unit, requiring replacement every 4 to 8 weeks.

Luminos 3 is available in a variety of colours and can be used in public areas, if needed. Requiring simple installation, the unit is supplied with three 15W UV-A lamps to attract insects.

Luminos 3

Luminos 3: Benefits to your business

- Discreet unobtrusive design – for use in public areas.
- Highly effective – eliminates the nuisance caused by flying insects.
- Effective glue board – Covers back and base of the unit, requiring replacement every 4 to 8 weeks.
- Supplied ready to use – 3x15W lamps and glue board.
- Safe and hygienic – no pesticides or flying insect fragments.
- Peace of mind – provides for health and safety requirements.

Luminos 3

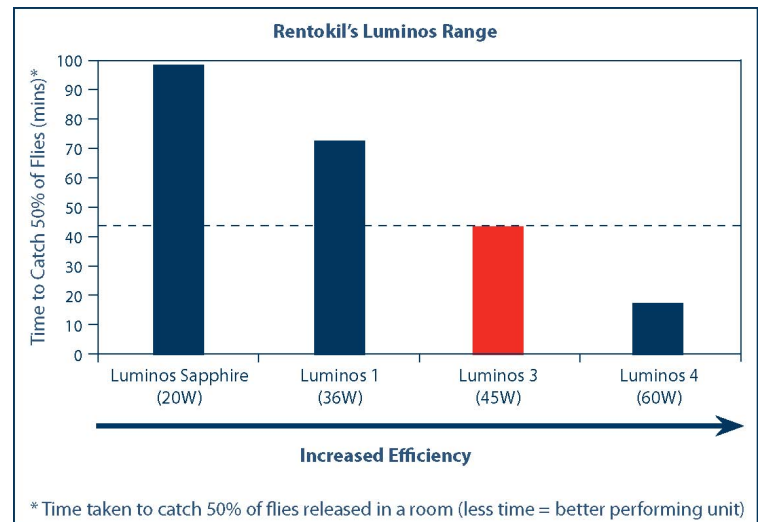

Effective and Attractive Fly Control

Effectiveness and an attractive design

In a series of tests designed to compare the effectiveness of Rentokil's Luminos units, Luminos 3 outperforms Luminos Sapphire and Luminos 1.

The graph opposite reflects the calculated "Half Life Time" for Rentokil's Luminos range. This test measures how quickly a unit catches 50% of flies in an area, and uses this as a proxy for overall effectiveness. For further information on half life measurement, please visit our website:

www.rentokil.in/flycontrol

Technical specification

To ensure optimum performance, the unit should be professionally serviced. The lamps should be replaced annually at the beginning of the fly season.
